

CAPE COD Style

With commanding views over the river, this four storey home in Brisbane's prestigious Hamilton Hill had the basis of being a spectacular luxury home. Built 15 years ago however, the home needed some adjustments to suit the style and needs of the new owners. Brisbane based design firm Highgate House have transformed the residence with classic elegance and a fresh, coastal ambience reflective of the style of homes in America's Cape Cod.

Walls, ceilings, timber frames and joinery were all painted vivid white, whilst the existing timber flooring was stained dark, creating a sophisticated contrast.
