

A classic design

White Cotswold furniture always looks good on a deck, especially when teamed with blue and taupe fabrics. This deck area, designed by Leigh Boswell of Highgate House, flows on from the interior living room which also has taupes and a touch of blue, giving cohesion between indoors and out. The dining chairs are not only fabulous to look at and comfortable to sit in, they are also easy care – just hose off and wipe down!

Expert Tip • If the area gets a lot of sun you are better to use woven outdoor fabrics as they will last longer than printed outdoor fabric. *Interior Designer, Leigh Boswell of Highgate House*
