

# *Luxe* WARDROBES

Storage for the home has never been more sleek, stylish or abundant. The key to a beautiful interior space is often the concealment of life's unsightly mess, particularly relevant in the home's most important of sanctuaries, the bedroom.

This masculine wardrobe designed by Wyer + Craw in conjunction with design firm Highgate House is a stunning example of form and function in a compact space. Dark timber cabinetry infuses the wardrobe with a luxurious, modern aesthetic, whilst a touch of marble, mirrored cannisters and a striking silver pendant add a hit of style. Tall, multi-railed cabinets are a dream for storing clothes, with accessories and smaller items hidden away within the room's centrepiece – a large island which also provides ample purposeful benchtop.

*The owner dreamed of a completely customised retreat which reflected the same aesthetic as the open plan bedroom and ensuite it adjoins.*

### **THE PINNACLE OF LUXURY**

Situated within a stunning Gold Coast residence, this luxurious wardrobe designed by Garsden & Clarke Kitchens is an utterly glamorous example of stylish, functional design. The owner dreamed of a completely customised retreat which reflected the same aesthetic as the open plan bedroom and ensuite it adjoins. Two Pak doors and moulded panelling are finished in a crisp bright white, a classical and elegant combination when paired with the mirrored doors, octagonal glass knobs and touches of silver throughout. Clothing, shoes and handbags are all neatly contained in the multiple cupboards and drawers lining the room, whilst the centre island provides the perfect spot for accessories and jewellery. Sconces, silver bamboo photo frames, a vintage style ottoman and a cannister-filled silver tray atop the centre island are the perfect finishing touches.
